

## **Fintech: Full Stack .NET Developer and Architect (80-100%)**

JAROWA AG is a young and established Fintech company. We digitalize orders to service providers from insurances, property management companies and administrations. We operate successfully in Switzerland and are currently expanding to Germany, Austria and other countries. The service providers on our platform operate in the following areas : Mobility, Property & Craft, Healthcare and Legal protection.

Our SaaS platform is based on a state of the art Micro Service Cloud Architecture, runs on Microsoft Service Fabric and is built with .NET Core, React JS and No SQL DB.

We aim to strengthen our highly motivated team with an additional member who is a full stack .NET developer, architect and team player. The new member will also have the responsibility to be the deputy of the CTO.

### **Your tasks and responsibilities:**

- Solution Design of new requirements, implementation PoC with particular focus on feasibility, scalability, architecture, stability, data security
- Coordinate with an offshore team of developers, architects and leading the effort
- Support platform configuration, QA and test
- Implement and support integration projects with customers
- Coordinate DevOps activities and monitor production system
- Automation test implementation
- Provide 3<sup>rd</sup> level support
- Deputy of CTO

**Your experiences:**

Must:

- Implementing mission critical application in .NET and Microsoft Technologies
- API design and related technologies (OpenAPI, Swagger, REST)
- Highly available, multi-threaded low latency platforms
- Strong communication skills to the internal / offshore teams and customers
- 4-5 years experience as developer
- 1-2 years experience as solution architect
- Languages: English and German

Optional:

- Designing applications using microservice cloud architecture
- Service Fabric, Kubernetes/OpenShift, cloud & containerization technologies
- Messaging frameworks (Apache ActiveMQ or RabbitMQ)
- Experience of agile practices and processes (e.g. SCRUM, KANBAN)
- Experience in working with off shore teams

Flexible working location Zug, Zurich and home office are provided.

We are looking forward to your application.

**Start:** Immediate

**Please send your application along with your CV to Roy Vayalathu (roy.vayalathu@jarowa.ch)**
